In order to create many opportunities for international students to learn English, there will be social activities planned. These activities will be scheduled during some afternoons and/or weekends. We will plan trips to local points of interest. Host families will also include international students in some of their family and local activities. For example, taking students to attend worship services, visit shopping malls, etc. We will also schedule a major trip to a nearby metro area such as Nashville, St. Louis, or Louisville during each semester.
